IMPORTANT NOTIFICATION

International application No.

PCT/JP2004/015771

International filing date (day/month/year)

19.10.2004

Priority date (day/month/year)

21.10.2003

Applicant

CANON KABUSHIKI KAISHA

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary report on patentability and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.
4. **REMINDER**

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the *PCT Applicant's Guide*.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and Industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed invention is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

ATTENTIONS

1. Demand for copy of documents

Copy of the documents described in the international preliminary examination report and not described in the international search report.

An applicant can request the copy of these cited documents to the Japan Patent Office, however, National Center for Industrial Property Information and Training (Japan Patent Office building 2nd floor) handles inspection and copying of official gazettes and copying of other document etc.

[Contact and Reference]

National Center for Industrial Property Information and Training

〒100-0013

3-4-3 Kasumigaseki Chiyoda-ku Tokyo

(Japan Patent Office building 2nd floor)

(Official gazettes) Industrial Property Information Reference Department

TEL: 03-3581-1101 Ext. 3811,3812

(Others) Industrial Property Reference Materials Department

TEL: 03-3581-1101 Ext. 3831,3832,3833

Japan Patent Information Organization also services sales of the copy of these cited documents. Those who request copying of the cited documents should pay attention to the following points.

[Application Method]

(1) As for Patent (Utility Model, Design) Gazette, the following points shall be defined clearly.

- Types of patent, utility model, and design
- Fiscal year and number of publication of application or publication of unexamined application (or patent number, registration number)
- Necessary number of paper sheets

(2) As for documents except for the gazette, the following points are required attention.

- Be sure to attach the copy of the international preliminary examination report (which shall be returned).

TEL: 03-3508-2313

Note) The period for requesting the copy of the documents to Japanese Patent Office is set to 7 years from the international application date.

2. It is necessary to submit the copy of international application (except for cases of already transmitted from the International Bureau) and its prescribed translation, and to pay the national fee. Respective countries set different periods so as to be required attention. (See Treaty Article 22, Article 39, and Article 64 (2) (a) (i))

CLAIMS

1. (Cancelled)

5

10

2. An information apparatus comprising a control unit which, when a notice "scheduled" date comes in a power-OFF status and then the apparatus is powered ON, notifies an unnotified "schedule" which has not passed a predetermine time back to the past before a current date as a reminder while does not notify an unnotified "schedule" which has passed beyond the predetermined time back to the past before the current date as a reminder.

3. (Cancelled)

25

5

4. A method of controlling an information apparatus comprising the steps of:

notifying, when a notice "scheduled" date comes in a power-OFF status and then the power supply is
10 powered ON, an unnotified "schedule" which has not passed a predetermined time back to the past before the notice "scheduled" date as a reminder; and

not notifying, when the notice "scheduled" date comes in the power-OFF status and then the power
15 supply is powered ON, an unnotified "schedule" which has passed beyond the predetermined time back to the past before the notice "scheduled" date as a reminder.

5. (Cancelled)

20

25

6. A program which causes a computer to
5 execute:

a notification procedure of, when a notice
"scheduled" date comes in a power-OFF status and then
the power supply is powered ON, notifying an
unnotified "schedule" which has not passed a
10 predetermined time back to the past before the notice
"scheduled" date as a reminder; and

an unnotification procedure of, when the notice
"scheduled" date comes in the power-OFF status and
then the power supply is powered ON, not notifying an
15 unnotified "schedule" which has passed beyond the
predetermined time back to the past before the notice
"scheduled" date as a reminder.

7. (Cancelled)

20

25

8. An information apparatus which is directed
5 for notifying an unnotified schedule whose notice
"scheduled" date registered in the apparatus comes in
a power-OFF status, wherein an unnotified schedule
which is included in a predetermined number of
schedules back to the past before a current date set
10 in the information apparatus is notified as a
reminder when the apparatus is powered ON, and

an unnotified schedule which is not included in
the predetermined number of schedules back to the
past before the current date set in the information
15 apparatus is not notified as a reminder.

9. (Cancelled)

20

25

10. A method of notifying a schedule which remains unnotified due to stop of a communication function even when a notice "scheduled" date comes in
5 the function of notifying a schedule booked in an information apparatus,

wherein when the notification function is started thereafter,

an unnotified schedule which is included in a
10 predetermined number of schedules back to the past before a current date set in the information apparatus is notified as a reminder, and

an unnotified schedule which is not included in the predetermined number of schedules back to the
15 past before the current date set in the information apparatus is not notified as a reminder.

11. A notice method according to claim 10, wherein a stop status of a notification function is a status where an information apparatus is powered OFF,
20 and the notification function is started when the information apparatus is powered ON.

12. A program which causes a computer to execute notification of a booked schedule and is directed for notifying a schedule which remains
25 unnotified due to stop of a notification function even when a notice "scheduled" date comes, wherein when the notification function is started thereafter,
